717-789-3931

September 14, 2017

TO: Parents and 10th Grade Students

FROM: Mrs. Bell, Miss. Meili and Mrs. Zeigler

All 10th grade students will be taking the ASVAB in October as part of West Perry High School's career exploration program. The ASVAB is an aptitude test designed to identify an individual's natural abilities and strength areas. There is also an interest inventory component to the exercise which helps students identify their interests and values related to the world of work. The ASVAB is administered by the United States Military. However, the test is being administered solely for the benefit of the students to aid in their career decision making. Military recruiters are only allowed to utilize ASVAB results which are obtained in 11th and 12th grade. Your child's score and information will not be released to recruiters. We believe that after completing this exercise, students will be more informed of their abilities and interests, and consequently, be able to make educated decisions about their futures. Please contact the counselors with any questions at 789-3931.
